

Compound Security Systems Ltd

VXGSM PIR

MULTI STABILISED OUTDOOR DETECTOR**2 YEAR WARRANTY**

The **Compound Security VXGSM PIR** takes a high stability external PIR sensor from market leader Optex and equips it with an integrated GSM messaging system with 3 year battery life.

**SENDS ACTIVATION ALERTS TO YOUR MOBILE PHONE****Applications**

The Compound Security VXGSM PIR is ideal for mobile / temporary use or use where mains power is not available. Empty properties, construction sites, storage facilities and remote equipment cabinets will all benefit from the security afforded by the VXGSM PIR security system. The VXGSM PIR is equally suitable as a rapid fit security system for use in:

- offices
- workshops
- garages
- sheds
- shipping containers
- lorries
- caravans, or any application where there is no power or communication facilities. It is also ideal to reduce the expense of manned guarding.

Installation

The VXGSM PIR is supplied ready to use out of the box. It has a mounting bracket for screw mounting to walls or strap mounting to poles. Simply put it down and turn it on.

Timed arm and disarm

The VXGSM PIR has a seven day timer to allow automatic arming and disarming. It can be configured with up to one arm and one disarm time per day of the week. This allows the unit to be configured to automatically disarm at 7AM and arm at 6PM Monday to Friday and to stay armed all weekend for example. It can also be used to auto-arm each night incase the last person out forgets to arm the alarm.

Features

The VXGSM PIR has the following features:

- IR keyfob for arm / disarm
- 3 year battery life
- Activation alerts via SMS text message
- Optional Tripod Mount
- Quad band worldwide GSM System
- Programmable silent entry time
- Programmable exit time
- High stability PIR avoids false alarms
- Waterproof housing
- 7 day auto arm / disarm timer
- Automatic status reporting
- 10 minute installation
